ACCESSORIES PRODUCT GUIDE
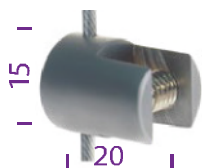

Cables & Rods   Wallmounts   Components
Sign Supports   Accessories

We have a selection of cables varying in diameter. The cables are a standard length of 4m and have a 1.5mm or 3mm diameter.

We also offer a selection of cable components that are manufactured to the highest quality at the most competitive prices.

If you are unsure of which components you need please call our sales team who will be more than happy to help you   .

Wall to Wall Cable Kit

Code	Size	Description

CW04-3	3mm	

Floor to Ceiling Cable Kit

Code	Size	Description
CF04	1.5mm	4m Cable with wall & ceiling fixings
CF04-3	3mm	

Code	Description
CCK	For 1.5mm & 3mm cables. Holds cable 35mm from wall. Comes with WMD fitting

Code	Description
CC01	Small clamp holds panels up to 4mm in thickness

Code	Description
CC02	1.5mm - Large Clamp Holds panels up to 8mm thickness
CC02-3	3mm - Large Clamp Holds panels up to 8mm thickness
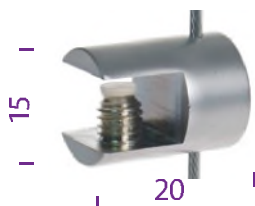

Code	Description
CC03	Shelf Clamp - Holds a glass or acrylic shelf up to 8mm in thickness

Code	Description
CC04	Support - Fix to rear side of panel

rotates through 360°

| Code	Description
CC05	1.5mm - Shelf support for drilled & slotted glass shelf
CC05-3	3mm - Shelf support for drilled & slotted glass shelf

Code	Description
CC06	Holds the edge of a panel up to 9mm thick

Code	Description
CC07	1.5mm - Supports a 2-7mm panel through a 5mm hole
CC07-3	3mm - Supports a 2-7mm panel through a 5mm hole

Code	Description
CC08	Supports a 6mm rod horizontally

Code	Description
CC09	Ceiling fixing & 2m cable

Code	Description
CC10	Vertical Jaw - suspends a panel up to 8mm thick in a vertical position. Use with CC09

Code	Description
CC11	Sign suspension kit. CC09 & CC10 with a 2m cable
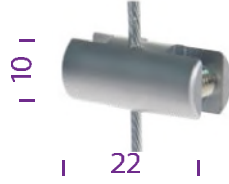

Code	Description
CC12	Holds panels up to 4mm in thickness. Use with CC01.

Code	Description
CC13	1.5mm - Holds panels up to 8mm thick. Use with CC02.
CC13-3	3mm - Holds panels up to 8mm thick. Use with CC02
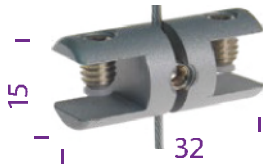

Code	Description
CC14	Holds glass or acrylic shelves up to 8mm thick

rotates through 360°
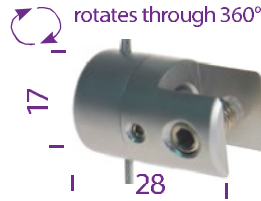

Code	Description
CC17	Holds panel up to 10mm thick at an angle

Code	Description
CC18	Double-sided support for 2-7mm panels through 5mm panel
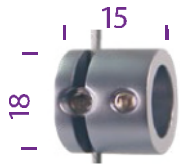

Code	Description
CC19	Support - for 12.5mm banner rail

rotates through 360°
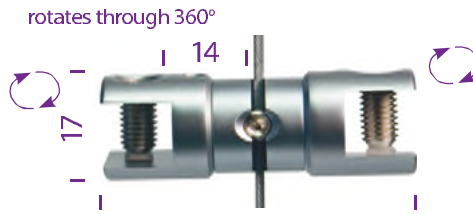

Code	Description
CC20	Holds panel up to 10mm thick

Code	Description
CC21	Holds panel up to 10mm thick

Code	Description
CH04	Toggle to connect cables/rods to channel and/or connecting sign supports to freestanding frames

Code	Description
CH05	Cable isolator kits for top/ bottom fixings, 1.5mm & 3mm cables. For use with lights

15mm   5mm   12mm   8mm   45.5mm
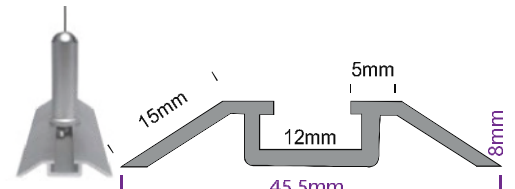

Code	Description
CH11	2m Channel. Fix to floor or ceiling

Kits for shelves 180mm wide

Wall to Wall Cable Kit		
Code	Size	Description
WW180	1.5mm	4m Cable with 4 wall fixings

WC360	1.5mm	4m Cable with 2 floor & ceiling fixings

6mm Rods & Components

(an alternative to
1.5mm & 3mm Cables)

6mm Stainless Steel Rod
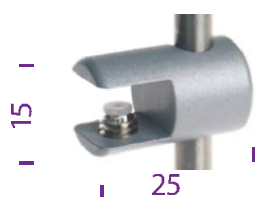

Code	Size	Description
1500R	1500mm	Threaded both ends. M4 left hand thread.
1000R	1000mm	No thread.
500R	500mm	Threaded both ends. M4 left hand thread.

Code	Description
RTB	Top & bottom fixing kit for rod system (Complete with screws & plugs)

Code	Description
RC02	Large clamp for vertical panel pockets up to 8mm thick

Code	Description
RC03	Shelf clamp for glass/acrylic shelf up to 8mm thick

Code	Description
RC04	Side Support for fixing onto the side os a shelf or panel

rotates through 360°

Code	Description
RC06	Panel Clamp holds the edge of a panel up to 9mm thick. Rotates 360°

Code	Description
RC07	Panel Supports for panel 2-7mm thick through 5mm hole

Code	Description
RC08	Rod Supports for for 6mm rod mounted horizontally on a vertical rod

Code	Description
RC09	Ceiling fixing (screw) to suspend 6mm rod from ceiling. Left hand thread. Use with 1500R/500R

Code	Description
RC09-P	Ceiling Fixing (push) to suspend 6mm rods off cuts from ceiling. Fixed with allen key.

Code	Description
RC10	Vertical Jaw for end of rod fitted to RC09/RC09-P. Panels up to 8mm thick

Code	Description
RC11	End cap - Satin chrome for 6mm rod. 12mm diameter

Code	Description
RC13	Double-sided large clamp to hold vertical panels/pockets up to 8mm thick

Code	Description
RC14	Double-sided shelf clamp holds glass/acrylic shelves up to 8mm thick

Code	Description
RC15	Transformer connector for 6mm rod

rotates through 360°

Code	Description
RC17	Multi position clamp - holds panels up to 10mm thick at any angle.

3mm Rods & Components
(2m Long)

12mm Rods & Components

Code	Description
RC18	Double sided panel support for 2-7mm panel through a 5mm hole

30

Code	Description
CH04	Toggle to connect cables/rods to channel and/or connecting sign supports to freestanding frames

Code	Description
RC14-12	Double-sided shelf clamp - holds shelves up to 8mm thick

These sign supports offer an easy method of mounting panels to a wall. All sign supports are packed in 4's. Available in satin chrome, polished chrome, black and brass finishes.

NOTE:
Some supports come with screws and plugs. There is no obligation to use them. They are merely provided as a gesture. We have no way of knowing which size of fixing will suit your requirement.

S1 Sign Support

Code	Finish
S1SC	Satin
S1PC	Polished
S1BR	Brass
S1BL	Black

For panels 2mm to 13mm thick, 12mm holes required.

S3 Sign Support

Code	Finish
S3SC	Satin
S3PC	Polished
S3BR	Brass

Supports for panels/signs with holes

Premium range of Sign Supports are designed to keep signs & displays away from the wall or substrate. They enhance the appearance of your display, they're easy to keep clean and are of a high spec metal finish with a brass screwed countersunk fixer. All are meticulously engineered in a satin chrome finish, as standard or in Warm Chrome, Polished Chrome, Polished Brass, or Black (available on request).

Note: Not all fittings are readily available in this range. Please contact our sales team to ensure that we have them in stock or that they are available to order.
